

## PUBLIC CONSULTATION ON THE MINIMUM FEATURES AND TECHNICAL SPECIFICATIONS FOR MOBILE CELLULAR DEVICES SOLD IN KENYA

The Communication Authority of Kenya (CA) is the regulatory authority for the ICT industry in Kenya with responsibilities in telecommunications, e-commerce, cyber security, broadcasting and postal/courier services. CA is also responsible for managing the country's numbering and frequency spectrum resources as well as safeguarding the interests of users of ICT services.

Pursuant to Section 23 of the Kenya Information and Communications Act 1998 (as amended), the Authority is charged with ensuring consumers are protected from substandard ICT apparatus. In this regard, the Authority has developed minimum features and technical specifications for mobile cellular devices to be sold in Kenya.

These specifications obligate vendors and manufacturers to ensure consumers buy quality mobile cellular devices. The proposed minimum features and technical specifications are available on the Authority's website at <http://www.ca.go.ke/index.php/public-consultations>.

Stakeholders, interested parties and the public have until **13th January 2018** to submit their inputs and comments on the proposed specifications. The comments received will inform any changes to the final specifications. The finalized specifications will be published on the Authority website for use by the industry and the public.

Written submissions can be forwarded to the Authority through the address below on or before the stated deadline.
